

8 JUN 1977

MEMORANDUM FOR: Deputy Director for Administration

FROM: William W. Wells
Deputy Director for Operations

SUBJECT: Telephone Survey Recommendations

REFERENCE: Your memorandum dated 31 May 1977,
Same Subject

The Operations Directorate concurs in the recommendations of the Telephone Survey Study Group except for Recommendation 4.b. We believe the phrase "unless specifically approved by the Deputy Director concerned" should be deleted to constitute a flat prohibition on the publication of component directories. With the best intentions it is impossible to predict which personnel may be placed under cover in the future and our experience with the Agency consolidated directory has demonstrated that the names of personnel currently under cover do manage to appear in published listings.
